EVA is a collaboration between singer-songwriters Pam Sheyne and Sarah Bethany, whose voices blend together to make a rich, unique, a cappella sound. EVA's timeless songs with their classic melodies and thought-provoking lyrics, delve deep into the human experience daring us to stop and be still. Pam and Sarah met at the Hawai'i Songwriting Festival in 2017, where they performed on stage together. Post pandemic, they collaborated on their first original song, "I Forgive You", and that inspired them to continue writing and to create an artist project together. "We really connected on a spiritual level first and it was through the process of writing these songs together and those deep conversations about life, love, and our experiences as women and mothers, that we really got to know each other better. Sarah and I have found a real sisterhood connection, and EVA has become a by-product of the beautiful friendship we formed over the past couple of years." -Pam Sheyne
